

Billy Jones

I moved to Greenville with my family after military service in the year 1967. I established Eastern Dermatology and after 13 years of private practice I established the Section Of Dermatology in the new ECU School of Medicine. I moved, first to Washington, then Bath, NC after retirement. A Washington neighbor, Jeff Jacob, introduced me to the joy of watercolor painting and I attended Jeff's classes until my wife Hansy and I moved to Cypress Glen Retirement Community in Greenville. I head the library at Cypress Glen and I continue to enjoy painting as a hobby.
